- Bootstrap Tailwind CSS
- IT Support
- Help Desk Support

Work Experience

2023 to 2024

1 Year

FRONT END DEVELOPER – Four Codex (USA- Remotely)

Responsibilities

- Developing and implementing UI components using React.js.
- Collaborating with cross-functional teams to design.
- Building reusable components and frontend libraries for future use.
- Translating designs and wireframes into high-quality code.
- Use React hooks (like use State, use Effect) and React Context API for state management.
- Fetch and display data dynamically in the UI, ensuring a smooth user experience.
- Reduce loading times and improve runtime performance for large applications.
- Implement responsive web design to ensure the application works across a variety of devices and screen sizes.

2022 to 2023

1.5 year

IT SYSTEM ADMINISTRATOR (ITSA) – K-Electric (Karachi Sindh)

Responsibilities

- Install and configure servers (Windows, Linux, macOS, etc.) and related software applications.
- Maintain operating systems, applications, and services, ensuring they are up-to-date with the latest patches, versions, and security updates.
- Ensure that the hardware, software, and network infrastructure is properly set up and optimized.
- Manage local area networks (LANs), wide area networks (WANs), and virtual private networks (VPNs).
- Configure and maintain routers, switches, firewalls, and other network devices.
- Provide technical support to users, troubleshooting and resolving IT-related issues.
- Monitor user activity and enforce organizational security protocols.
- Ensure that data backups are performed regularly (both on-site and off-site).

2022
3-Months

Internship Remotely (Training)
Responsibilities

- Work closely with senior developers to build responsive and interactive React components.
- Develop reusable and modular components to enhance code maintainability and scalability.
- Assist in converting design mockups or wireframes into functional React components.
- Participate in discussions with the development team to plan new features and functionalities.
- Implement new features based on project requirements, ensuring they align with best practices for React development.
- Work with the team to resolve issues and troubleshoot bugs during the development cycle.
